WILLIAM YEOWARD

ARCHITECT'S COFFEE TABLE - SMALL

Description

The original Architects coffee table! Much copied but not improved this piece came from the house of the great designer Dick Dumas in France. Now made by skilled craftsmen in England this sublime coffee or cocktail table continues to be timeless and dateless. Its strength is in its simplicity. The design so well resolved over years that the corners of the glass are safely hidden behind the corner posts and the table is raised up on the most elegant castors either in brass or nickel. Use it in the library, sitting room or study and even in the loggia painted in dirty off white! As with all William Yeoward bespoke furniture the Architects end table can be crafted in a variety of timbers from oak and chestnut through to mahogany and walnut.
