

LETINSE GOLD PLACEMAT

£15.25

Description

Made in Swaziland by groups of skilled artisan weavers using traditional methods which have been passed down through the generations. These placemats made from locally grown letinse grass are perfect for informal dining settings, we love to use them with Pinterra Fringed Napkins and Lavomisa napkin rings. Available in a choice of eight colours, dimensions are approximate as these placemats are hand made and will vary slightly.
