

# HAVELOCK DINING TABLE - KITCHEN OAK

£4,995.00

## Description

Our Havelock table is a marvellous piece in majestic oak that accommodates one's friends and family for either simple or festive occasions. The pedestal on this piece, which I took from a newel post from the north of England, is really the point of this substantial table. Scallops around the edge at the base give the table an elegance that it otherwise might not have.
