Description

The Tom carver and side chairs were originally commissioned as interpretations of some English 19th-century chairs by the present owners of a villa at Opia in the south of France that had previously been decorated by Tom Parr, a renowned London designer. We are very pleased to be able to include them in our range.

The Tom Side Chair can be upholstered in your choice of fabric, so although a stocked item this chair is not available for immediate delivery. Please contact our [customer services](#) to discuss options.
