

AVOCADO VASE - BURNT ORANGE

£42.50

Description

The Avocado Vase's pure and simple design, based on the principles of minimalism, timelessness, and functionality, allows you to observe the avocado seed grow into one of the heartiest and handsome house plants you can grow. We have refined the traditional method of growing, skipping the toothpicks, and utilising the opening to cradle the seed keeping it dry as it sprouts and encouraging the roots to flourish freely. The sinuously shaped vase magnifies the roots as they prosper; creating a perfect focal point to witness the plant as it develops. Your love of avocados can thrive long after eating one; just save the seed, grow it and discover the extraordinary tree inside. Ideal for plant lovers, design enthusiasts, inquisitive children and everyone who wishes to experience the joy of nature and a unique connection to our environment.
