

FERDINAND BUFFET CLOUDY OAK

Description

Signature of our beautiful ...collected furniture collection is the use of marquetry. The Ferdinand was taken from a small piece of 17th century wall panelling that William saw on a visit to Stockholm. With its many drawers and beautiful galleried top Ferdinand works perfectly in the modern breakfast room or the country house dining room. The drawers are finished with our signature marquetry inlaid detail and have ample capacity for most families needs.
