

# Four Seasons Hampshire

An extraordinary privilege to have worked on such a prestigious project having been appointed to work on a virtually wall to wall commission. A country house interior using William Yeoward classics revisited to fit the beautiful Georgian architecture and idyllic surroundings.

For our Four Seasons Hampshire project we collaboratively developed a bespoke range of 'concept' furniture pieces completely unique to FSH. We take a consultative approach to create the right piece of furniture for your space.

## THE SHOREVILLE MODULAR

We were commissioned to bespoke our Shoreville modular sofa, where we customised it to fit this specific space, as pictured below.

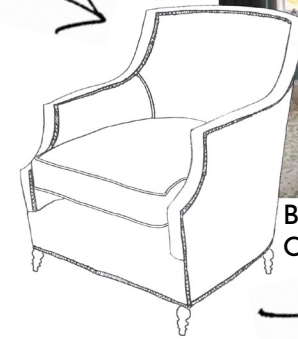

Bespoke Shoreville Modular Sofa

## THE PALMER ARMCHAIR

We developed our iconic 'Palmer' Armchair by altering its tapered leg and castor into a turned leg and added a bespoke Ottoman from scratch to pair with it.

Bespoke Palmer and Ottoman

## THE SHERSTON CHAIR

Bespoke Sherston Chair

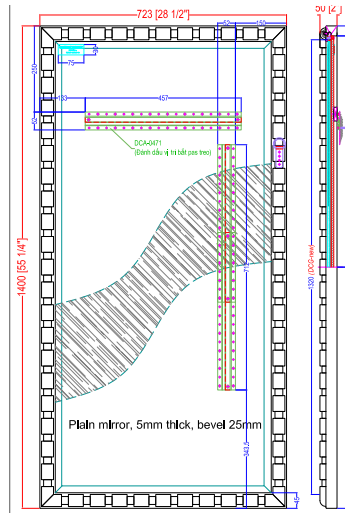

For the 'Sherston Chair' we changed the legs and gave them a more traditional look with turned and fluted details.

## CHIRK MIRROR

Mirrors can be modified to bespoke dimensions.

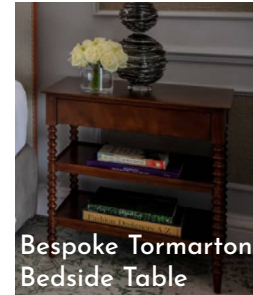

Bespoke Chirk Mirror

# TORMARTON BEDSIDE TABLES

We also did these bedside tables, based on our Tormarton Bedside table and totally reconfigured it. We took the turned leg and changed all other design elements, we even changed the finish to match the clients own mahogany finish.

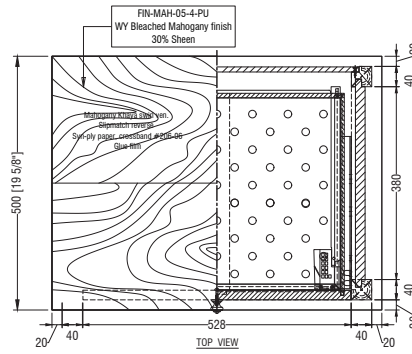

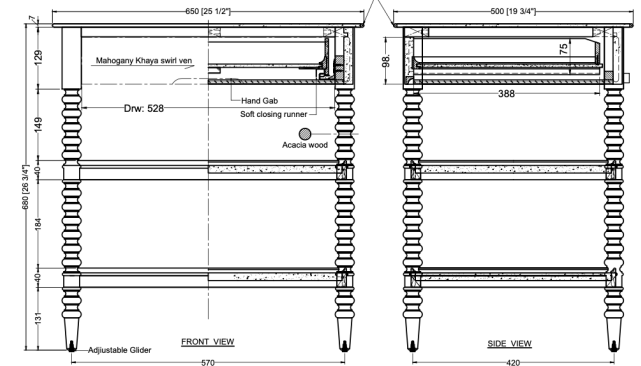

Original Tormarton in Washed Acacia

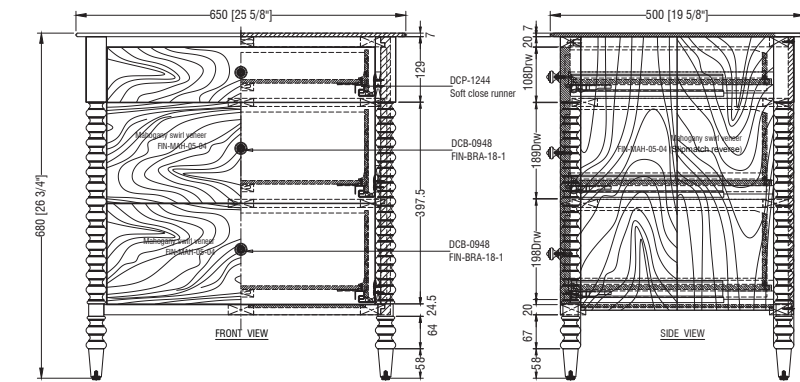

Bespoke Tormarton Bedside Table

Changed the finish to mahogany

We took the turned leg detail of the Tormarton and completely reconfigured this bedside table to have drawers as per the clients brief and stained mahogany.

## ELLISTON ARMCHAIR

We created a hardframe chair. These hardframe chairs were developed from the original Elliston Chair. We redesigned and reconfigured it to create a completely customised chair that fitted the clients brief.
